

BOSS-CH12FM 12 SLOT - LGX CHASSIS

DESCRIPTION

With this rugged system fused chassis, PLC and Multiplexed splitters are well organized for easy access and protected from dust and debris. The indented mounting area allows for greater fiber management while ensuring that the chassis is flush with the rack, allowing the rack doors to close.

FEATURES

- Supports standard 19" 4RU, rack-mount chassis with 12 slots for LGX modules
- 2 inch fiber entry points for greater fiber flexibility
- Comes with fiber management accessories
- For different type LGX box module (Splitters/Coupler, WDM, CWDM, DWDM)
